How Merck and Drug Regulators Hid Serious Harms of the HPV Vaccines Hardcover – 9 Oct. 2025

by Peter C. Gøtzsche (Author)
This is a story of scientific misconduct, committed by Merck, the fourth biggest drug company in the world. Merck has committed scientific misconduct before, and the author describes the fraud related to Merck's arthritis drug, Vioxx, which killed tens of thousands of patients because Merck concealed that it causes heart attacks.

In his role as an expert witness in a lawsuit against Merck, Dr. Peter C. Gøtzsche read 112,452 pages of confidential study reports about Merck's HPV vaccine Gardasil, corresponding to 500 medium-sized books, and wrote an expert report of 350 pages with four appendices. Dr. Gøtzsche reveals that Merck used numerous tactics to avoid reporting serious neurological harms of Gardasil, including Postural Orthostatic Tachycardia Syndrome (POTS) and Complex Regional Pain Syndrome (CRPS), which, in his view, in some cases constituted outright fraud.

One Response to "Schoolchildren go back to the danger zone"

Belyi says: 3 Sep 2025 16:13

I downloaded the first chapter and on page 15 I was horrified to read that Dr Gøtzsche advocated vaccines for children and trashed the excellent research that has been done showing the high possibility of a link between vaccines and autism.
